# Canal barge **Le Tenace**

This boat, which took on water in December 2013 at the Quai de la Daurade, was restored so that it could contribute to the development and prestige of the city. And, even if it doesn't travel on it, Le Tenace was also renovated to promote the Canal du Midi.

Equipped with a terrace on the upper deck, the canal barge is an exceptional and unique place for your event.»

## le Tenace
